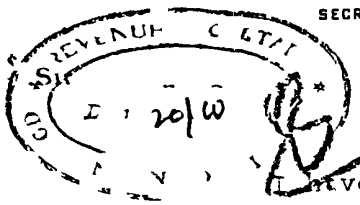
MYSORE

To SYED ABDUL ALEEM, Esq, B A
SECRETARY TO THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE
REVENUE DEPARTMENT BANGALORE



21 OCT 1947

SSC BRANCH

I have the honour to state that the Trust Board have formed nearly 1,500 sites from the past three years and all of them have been disposed off to the public The number of constructions that have come up on these sites is negligable As such the efforts put forth by the Board to ease the congestion in the City proper and to take the housing problem in the City as a whole have not come up to expectations

To see how the difficulty could be solved and to ascertain the difficulties in the way of the house building a public meeting of the site owners in the recently formed layout in Niranjanraj Urs Garden was held on 4th September 1947 This is a compact layout consisting of 167 cottage sites all of which have been sold out at upset rates only to the poor and lower middle classes of people

The difficulties represented by the parties come mainly under three categories viz , (1) Finance, (2) Labour and (3) Materials The President, Mysore House Building Co-operative Society who was also present in the meeting is agreeable for the site owners enrolling themselves as members of the Society consistant with the bye-laws governing such enrolment and help them so far as the financial aspect is concerned

As regards the actual construction of houses, the Society is again prepared to enter into contract with suitable firms or Engineering Contractors capable of undertaking large scale building works, on behalf of the members, or if any individual so prefers he may employ his own resources or methods of construction

The snag however which comes in the way of a practical materialisation of the scheme of actual construction is the difficulty regarding the availability of the three main building materials viz , Cement, Steel and Timber There was an unanimous representation made by the members who

attended the meeting that some specific action has to be taken with a view to supply these materials in required quantities at controlled rates

The approximate quantities of the aforesaid materials required for putting up buildings on sites already formed according to a five-year programme are as marginally noted The only course that suggests itself as being feasible to afford the benefit of timely supply of the materials at controlled rates to the parties is, for the Trust Board to build up sufficient stocks of the same and arrange for the issues to bona-fide people after ascertaining the minimum requirements in each case

1) Cement	2,000 tons
2) Steel	500 "
3) Timber	40,000 Cft

It may also be stated that action is also being taken by the Board for resuming such of the sites as have been purchased during the period 1916 to 1942 and which have not yet been built upon Government have sanctioned the necessary establishment to attend to this work separately The vacant sites coming within the condition of resumption have all been listed and final notices also issued in many cases The difficulty that the parties have all been pleading is the non-availability of the materials under reference and unless the Board have in their powers to afford some relief in this direction, nothing substantial will be achieved in persuading the parties to erect buildings under the threat of resumption of the sites

I would therefore suggest that the entire stock of cement, Iron and Timber which may be made available for house building purposes in Mysore City or as large a portion of it as possible may be handed over to the Chairman of the Trust Board who will have the responsibility of allocating the material to bona-fide house builders The Board will then be able to give it to people who are sure to build houses thereby avoiding the possibility of the materials being black marketed also

Proposals for making adequate arrangements for storing safely the huge quantities of the materials and for issuing the same

will be worked out and submitted soon after Government orders are issued approving the scheme

I have the honour to be,
Sir,
Your most obedient servant,

HRS/3

Chairman.

B A N G A L O R E

Dear Sir

With reference to your letter No L 11280 2/E of the 29th ultimo regarding release of Cement, Iron, and Timber for Mysore City house building purposes, I recommend the proposed arrangement for trial A central local agency can make the materials readily available to genuine users, and can also check mis-use I shall arrange to release 500 tons of steel sections made in the Mysore Iron & Steel Works required for the purpose in period I and II/1948 in favour of the Chairman City Improvement Trust Board Mysore, if he should send me the exact specification of the materials required, before the end of this month

The current price would be Rs 351-4-0 per ton - F O R Bhadravati against the Retail selling rate by the Registered Mysore dealers of Rs 378-4-0 per ton The difference of Rs 27/= is intended to cover the Rly freight charges of Rs 7-9-0 per ton and other incidental charges to be incurred in arranging distribution This is the basis on which supplies are made to the Agricultural Department for sale in their Depots

The Controller of Civil Supplies United India - Buildings Bangalore is the Chief Rationing Authority for Cement in the State and he may please be consulted regarding release of this material

The Chief Conservator of Forests in Mysore Bangalore may please be addressed regarding supply of timber as he may be in a position to render assistance in this regard

Yours faithfully

Iron & Steel Controller

CHAIRMAN CITY IMPROVEMENT TRUST BOARD
MYSORE

To Syed Abdul Aleem, Esq, B.A.
SECRETARY TO THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE
REVENUE DEPARTMENT BANGALORE

Sir

Re Placing of the entire quota of cement, iron and Timber allotted to Mysore City at the disposal of the Mysore City Improvement Trust Board, Mysore

---

With reference to your letter No L 12839 dated the 26th January 1948 on the above subject, I have the honour to inform you that the Iron and Steel Controller has agreed to release 500 tons of steel

There can be no trouble for similar facilities being afforded by the Controller of Civil Supplies and the Chief Conservator of Forests for the supply of cement and timber respectively Though there is acute shortage in the availability of these materials, as stated in the Chief Engineer's letter, the present proposal of the Board is to pool up the available resources and ensure their equitable distribution for genuine ~~Engineers~~ Consumers and for bona-fide purposes As opined by the Steel Controller this proposal is well worth a trial

The Steel Controller has already been intimated about the requirements of several sections of steel in this office No A 5-115/47-48 dated the 27th January 1948 and a copy of the same has been submitted to Government on the same date

I have the honour to be,
Sir,
Your most obedient servant,

P Sitaramiah 9/2

Bangalore

Sir

Supply of building materials required by the Chairman City Improvement Trust Board Mysore

6/3

With reference to your letter No L 13133-4 dated the 4th ultimo on the above subject I have the honour to state that timber of the jungle wood species to the extent of 10,000 cft may be sold at the prevailing depot rates to any person who brings the authority of the Trust Board regarding their bona-fide requirements subject to stocks being available in the depot No stock can be earmarked and kept indefinitely in the wood-yard Mysore as the stocks have to be cleared periodically by auctions in order to make room for fresh supplies as fellings progress in the Ranges

As regards teak, ~~and~~ not only is it scarce but also it is the one species which is the main source of the timber revenue of the department and the best mode of its disposal is in open auction sale mostly It has to be given away therefore very sparingly and a total allotment of 2000 cft under this species may be fixed for a year

I have the honour to be
Sir
Your most obedient servant

Chief Conservator of Forests

Additional Director of Industries and Commerce

BJ)

Letter No 139/11337 dated 21st February,1948 from Messrs The Cement Marketing Co , of India,Ltd , Bangalore to the Regional Honorary Cement Adviser, 33, Avanashi Road, Coimbatore

---

We are forwarding to you an application from the Chairman, City Improvement Trust Board, Mysore, for 11,100 bags of cement for works to be executed by the City Improvement Trust Board, Mysore

Since the Bhadravati Works are not in a position to meet this demand, the Controller of Civil Supplies in Mysore, Bangalore has specially requested us to arrange for the supply from Madukkarai after obtaining your authorisation

The Chairman of the Improvement Trust Board, has informed us that he is making necessary arrangements with the Mysore State Railway authorities to obtain wagons to tranship the cement to Mysore and as such an authorisation for Mysore delivery may kindly be issued in his favour

If however they are unable to get the required wagons despatched to Mysore, we will pursuade the Improvement Trust Board to accept consignments at Bangalore for transport to Mysore on their own account

We shall thank you to kindly send us an authorisation at an early date

action to get 11,000 bags of cement

No A5-C-378/46-47

Office of the Chairman
City Improvement Trust Board

Mysore Dated 28th May 1948

From

The CHAIRMAN CITY IMPROVEMENT TRUST BOARD
MYSORE

To

The SECRETARY TO THE GOVERNMENT OF
HIS HIGHNESS THE MAHARAJA OF MYSORE
REVENUE DEPARTMENT BANGALORE

Sir,

Sub Placing the entire quota of cement, Iron and wood at the disposal of Mysore City Improvement Trust Board, Mysore

I have the honour to state that it was proposed to help the site owners of the city for constructing houses on the vacant sites of the extensions and for the improvement of houses in slum areas of the city proper by supplying the required quantity of cement, iron, and wood to them for solve the housing problem In addition to this a number of small houses are also proposed to be built for the poor and middle class people departmentally It is on this account that the above proposal was started as per personal discussions with the Minister for Finance & Industries to Government of Mysore

Accordingly the said proposal was submitted to Government vide this office No B1-T O 825/47-48 dated 17th October 1947 and you were kind enough to intimate to this office in your letter No L 12839/26-1-48 -- (enclosing the copy of letter No 6101/dated 5-12-47 received from the Iron and Steel Controller for Mysore) to place orders with him before the end of December 47 for 500 tons of iron and to furnish the definite views as regards cement and timber in the light of the letter No S 161 dated 5-1-48 received from the Chief Engineer Accordingly the letter was addressed to the Iron & Steel Controller, Bhadravathi, vide this office No A5-C-115/47-48 dated for the supply of 500 tons of iron as per specifications given and a copy of this letter was also submitted to Government for favour of information But no iron so far received in this office and it is not understood at what stage this question stands I have also furnished my opinion with regard to other particulars called for in your letter No L 12839 / 20-11-48 and L 15145 dated 30th March 48 in this office No SG 205/ 9-2-48 and A5-C-378/46-47 respectively In the meanwhile a reference is received from your office in No L 15919/ 19-4-48 with a copy of letter No G 3395/3-3-48 received from the Additional Director of Industries and Commerce, Bangalore, together with its enclosure for taking further action to get 11,000 bags of cement

7339/L

In this connection, I wish to point out that 11,000 bags ~~of~~ permitted to be purchased through the Cement Marketting Co , of India, Ltd , Bangalore as alloted in the above letter of the Additional Director of Industries & Commerce, Bangalore, is only for the departmental works, such as pipe line, underground sewer lines, house connections, Road works, and construction of a few model houses, etc , ~~as per the statement enclosed~~ This allotment of 11,100 bags of cement is ~~completely~~ different from ~~that~~ ~~of~~ the ~~Cement~~ required for the housing problem of the city The Additional Director of Industries & Commerce has also been addressed in this matter vide No A5-C- 378/46-47 to intimate the circumstances under which this was done and no reply is so far received

Under these circumstances, I request that this entire quota of cement, iron and timber etc , for the housing problem in the city as originally requested in this office letter No B1-TO 825/47-48 dated 17th Oct '47 may kindly be alloted and the concerned Depots instructed to ~~make~~ for immediate supplies to enable this Department to give some relief to the poor and middle class people If this is not done our proposals will end only in correspondence and there will be no benefit to the citizens

I therefore, request that the necessary sanction of Government may kindly be obtained at an early date and communicated to this office for further action

I have the honour to be,
Sir,
Your most obedient servant,

Date 11th August 1948

D O No A5 C-378/46-47

Dear Janab Syed Abdul Aleem,

Sub:- Placing the entire quota of cement, Iron and wood at the disposal of the City Improvement Trust Board, Mysore, for distribution to the public

I write to inform you that the above question is pending in Government since a long time and no reply is so far received since April 1948 inspite of repeated requests made from this office

It is not possible to make any improvements in the slum areas within the City limits and to insist upon the construction of houses in Extensions without supplying the above articles to the owners who are willing to assist the Board in connection with the improvement schemes

I therefore request you to kindly arrange to obtain the orders of Government for obtaining the above articles from the concerned Departments, as and when required at the scale fixed

This may kindly be treated as very urgent and a reply may kindly be issued to this office, as to the stage at which the matter stands at present so that the matter can be moved with the Ministers concerned for early sanction of the proposal in the interest of the improvement of the City and to provide houses to the poor and middle class people

Yours sincerely,
P Sitaramaiah
